# INTRODUCTION

Our project EMPLOFEST is common platform for employers and seekers. We are the new generation job search that empowers seekers to reach their full potential and helps employers make the most of their teams. Emplofest has remove job post and resumes from the mainstream job search and provide platform for Seekers qualification seen by recruiters passively while they instead focus on new skills.

Employer can discover everything he need to know about his next hire for free. Employer can also see personal dashboard of employee to be recruited. on this platform employer can report dishonest and misleading credentials, which may result the permanent ban of seeker's phone number and account from site. Accounts are tied to user's phone number to prevent permanently banned users from returning to site.

In this way EMPLOFEST helps seekers as well as employers to find their 100% match.

## **Proposed Users Of Emplofest :**

### **1. Job Seekers :**

1. Students.
2. The people having specific year of work experience in specific industry.
3. The people who want to switch their carrier to new technology or industry.
4. Part time job seekers etc.

### **2. Employers :**

1. Industrial organization.
2. Educational organizations.
3. Healthcare organizations and Hospitals.
4. Banking and Finance organizations etc.

## **Tools Used :**

1. Visual Studio Code
2. Web Browser
